Development is the buzzword of contemporary world. Successive governments spend huge amount of funds on development. Yet, it appears much need to be done. This is mainly due to the gap between policy makers and the stakeholders.

The two day conclave will provide a platform for the stakeholders to gather at one place and share their ideas that would provide a meaningful direction to the development, thereby giving a push for **Brand Hyderabad**.

water and sewerage system, improving green coverage, traffic management and the actual job ahead for the government.

**Health Tourism:** Hyderabad has grown into a major health tourist attraction. However, stakeholders feel much needs to be done. Their ideas will be discussed and conveyed to the government.

**Security:** While police have been taking proactive measures to contain crime, importance of Hyderabad has grown leaps and bounds with respect to national security in view of existence of large number of defense establishments. Also, presence of Bangladeshi infiltrators and Rohingya refugees has become a cause of concern. These issues require the attention of the government and the people.

**Political Parties Vision:** It is the political parties that play crucial role in the development of Hyderabad during respective regimes. People need to know whether political parties have a clear and honest vision for Better Hyderabad.

So, we appeal to all the stakeholders to register for the two day conclave and share your ideas for better Hyderabad.

Last date for registration: 12<sup>th</sup> December, 2017.
